

Alternative Energy

October 1, 2009

Abstract:

The global outlook series on Alternative Energy provides a collection of statistical anecdotes, market briefs, and concise summaries of research findings. The report offers an aerial view of the global Alternative Energy industry, identifies major short to medium term market challenges, and growth drivers. Regional markets elaborated upon include US, Canada, Japan, Europe, India, Australia, China, Thailand, Philippines, Indonesia, Latin America, and Algeria among others. The report also offers a recapitulation of recent mergers, acquisitions, and corporate developments in addition to an indexed, easy-to-refer, fact-finder directory listing the addresses, and contact details of 694 companies active in the market.
